Biosecurity Status Document

Vessel Name: RUBY PRINCESS

IMO Number: 9378462

Document Version: 1

Call Sign: ZCDY2

Voyage Number: RU2007

Issued on: 16/03/2020 2:09:35 PM (Canberra Time)

Details

The following information provides the status of this voyage as of the date noted above. Where changes occur, a revised version of this document will be provided.

Conditions outlined in this document include directions issued under a specific section of the *Biosecurity Act 2015* and guidance on how to comply with the department's requirements. Failure to follow these conditions may constitute an offence, which may lead to penalties or prosecution under the *Biosecurity Act 2015*. More detail is in the footnotes included at the end of this document.

The vessel's master and agent must comply with the department's requirements and directions, including providing all relevant documentation upon request. The department must be notified immediately of any changes to the information provided in relation to this voyage. This includes changes to berthing/departure times or locations.

Berthing Conditions in Australian First Point of Entry Ports

The vessel has met its reporting requirements and is eligible to berth in Australian first points of entry. The operator of the vessel must, as soon as practical, notify a biosecurity officer if information in the pre-arrival report is incomplete or incorrect.

Berthing Conditions in Australian Non First Point of Entry Ports

If you intend to enter a Non-First Point of Entry port during your voyage in Australian waters you must receive approval from the department prior to arrival in the port.

All major Australian ports have been determined as First Points of Entry and are listed on the department's website at <http://www.agriculture.gov.au/biosecurity/avm/vessels/first-point-entry-and-non-first-point-entry>. Vessels may visit any First Point of Entry during their voyage in Australia.

It is an offence for a vessel subject to biosecurity control to moor and/or unload goods at a port in Australian territory that is not a first point of entry, unless the Director of Biosecurity (or delegate) has given permission.

Vessel Biosecurity

The vessel is scheduled for inspection at the next port. This may change without notice.

Vessel will be risk assessed for Asian Gypsy Moth (Non-Far East Russian Port), Burnt Pine Longicorn and Novel coronavirus and may require an inspection.

Please complete the seasonal pest checklist(s) and return to maritimencc@awe.gov.au.

The master has declared live plants on board the vessel. All plants must be kept inside and away from open doors and with windows closed. Unless authorised to do so, all plants should be kept inside the vessel while the vessel is in port and remain on board the vessel in Australian territory^d.

No plant, foodstuffs or goods (excluding goods carried as cargo) may be removed from the vessel without the approval or direction of a biosecurity officer.

Increased intervention and a stronger enforcement approach is currently in place to keep African Swine Fever (ASF) out of Australia. Passengers and crew must not remove jerky, biltong and other pork products from the vessel.

Galley grinders, waste chutes and swing bins that discharge waste overboard must not be used in Australian ports or waters. Foodstuffs must not be used as bait for fishing in Australian ports or waters.

Masters must advise the department of:

- any crew departing; and/or,
- waste being discharged from the vessel to a provider that does not have an approved arrangement.

Hitchhiking and migratory birds must be removed from the vessel prior to the vessel entering Australian territorial sea. Report any insects or animals, including rodents found on board the vessel during the voyage to the department. Refer to the Biosecurity Checklist for Vessel Masters and information on the Vessel Compliance Scheme to ensure compliance with the department's requirements.

Vessel Pratique and Ship Sanitation

The department has been notified that there are human health issues on board the vessel, which will be assessed at time of inspection. The vessel must continue to display the Quarantine Signal (letter Q in the International Code of Signals).

The vessel's master or agent must notify the department as soon as practicable if any individuals on board have signs or symptoms of a listed human disease during the current Australian voyage.

Ballast Status

The vessel has declared that it does not intend to discharge from the following tanks: DB 13P, DB 15P, DB 16S, DB 18S, DB 1C, DB 2C, DB14S, DB17P and FPT. A new Ballast Water Report must be submitted if discharge intentions change.

All ballast water must be managed in accordance with the Australian Ballast Water Management Requirements. The vessel may commit an offence if unmanaged ballast water is discharged from any tank on this vessel. This includes Australian sourced ballast water intended for discharge within Australian seas

If the vessel becomes aware that the information provided in the Ballast Water Report is incomplete or incorrect, additional or corrected information must be provided as soon as possible. Vessels taking up ballast in the Australian seas are highly encouraged to resubmit an additional Ballast Water Report prior to discharge of Australian sourced water.

Ballast water exchange must not be conducted in the Great Barrier Reef Marine Park, as set out in the Australian Ballast Water Requirements.

The vessel may commit an offence if sediment is discharged in Australian seas from any tank on this vessel. All ballast sediment should be removed to a landside facility in accordance with Australian federal and state waste management policies. Disposal of ballast tank sediment outside the 200Nm limit is an acceptable management practice.

Details

The following information provides the status of this voyage as of the date noted above. Where changes occur, a revised version of this document will be provided.

Conditions outlined in this document include directions issued under a specific section of the *Biosecurity Act 2015* and guidance on how to comply with the department's requirements. Failure to follow these conditions may constitute an offence, which may lead to penalties or prosecution under the *Biosecurity Act 2015*. More detail is in the footnotes included at the end of this document.

The vessel's master and agent must comply with the department's requirements and directions, including providing all relevant documentation upon request. The department must be notified immediately of any changes to the information provided in relation to this voyage. This includes changes to berthing/departure times or locations.

Berthing Conditions in Australian First Point of Entry Ports

The vessel has met its reporting requirements and is eligible to berth in Australian first points of entry. The operator of the vessel must, as soon as practical, notify a biosecurity officer if information in the pre-arrival report is incomplete or incorrect.

Berthing Conditions in Australian Non First Point of Entry Ports

If you intend to enter a Non-First Point of Entry port during your voyage in Australian waters you must receive approval from the department prior to arrival in the port.

All major Australian ports have been determined as First Points of Entry and are listed on the department's website at <http://www.agriculture.gov.au/biosecurity/avm/vessels/first-point-entry-and-non-first-point-entry>. Vessels may visit any First Point of Entry during their voyage in Australia.

It is an offence for a vessel subject to biosecurity control to moor and/or unload goods at a port in Australian territory that is not a first point of entry, unless the Director of Biosecurity (or delegate) has given permission.

Vessel Biosecurity

The vessel is scheduled for inspection at the next port. This may change without notice.

The master has declared live plants on board the vessel. All plants must be kept inside and away from open doors and with windows closed. Unless authorised to do so, all plants should be kept inside the vessel while the vessel is in port and remain on board the vessel in Australian territory^d.

No plant, foodstuffs or goods (excluding goods carried as cargo) may be removed from the vessel without the approval or direction of a biosecurity officer.

Increased intervention and a stronger enforcement approach is currently in place to keep African Swine Fever

Australian Government
**Department of Agriculture,
 Water and the Environment**

(ASF) out of Australia. Passengers and crew must not remove jerky, biltong and other pork products from the vessel.

Galley grinders, waste chutes and swing bins that discharge waste overboard must not be used in Australian ports or waters. Foodstuffs must not be used as bait for fishing in Australian ports or waters.

Masters must advise the department of:

- any crew departing; and/or,
- waste being discharged from the vessel to a provider that does not have an approved arrangement.

Hitchhiking and migratory birds must be removed from the vessel prior to the vessel entering Australian territorial sea. Report any insects or animals, including rodents found on board the vessel during the voyage to the department. Refer to the Biosecurity Checklist for Vessel Masters and information on the Vessel Compliance Scheme to ensure compliance with the department's requirements.

Vessel Pratique and Ship Sanitation

The department has been notified that there are human health issues on board the vessel, which will be assessed at time of inspection. The vessel must continue to display the Quarantine Signal (letter Q in the International Code of Signals).

The vessel's master or agent must notify the department as soon as practicable if any individuals on board have signs or symptoms of a listed human disease during the current Australian voyage.

Ballast Status

The vessel has declared that it does not intend to discharge from the following tanks: DB 13P, DB 15P, DB 16S, DB 18S, DB 1C, DB 2C, DB14S, DB17P and FPT. A new Ballast Water Report must be submitted if discharge intentions change.

All ballast water must be managed in accordance with the Australian Ballast Water Management Requirements. The vessel may commit an offence if unmanaged ballast water is discharged from any tank on this vessel. This includes Australian sourced ballast water intended for discharge within Australian seas

If the vessel becomes aware that the information provided in the Ballast Water Report is incomplete or incorrect, additional or corrected information must be provided as soon as possible. Vessels taking up ballast in the Australian seas are highly encouraged to resubmit an additional Ballast Water Report prior to discharge of Australian sourced water.

Ballast water exchange must not be conducted in the Great Barrier Reef Marine Park, as set out in the Australian Ballast Water Requirements.

The vessel may commit an offence if sediment is discharged in Australian seas from any tank on this vessel. All ballast sediment should be removed to a landside facility in accordance with Australian federal and state waste management policies. Disposal of ballast tank sediment outside the 200Nm limit is an acceptable management practice.

Maritime Travellers Processing Permission for Vessel

Ruby Princess

**Permission is granted in accordance with s58 of the Customs Act 1901 and
s247 of the Biosecurity Act 2015**

Permission is granted by the Maritime Travellers Processing Committee (MTPC) for the Master of the vessel, Ruby Princess to permit their vessel to arrive at and depart from a port other than an appointed port and/or restricted minor port in accordance with the Schedule in **Attachment A** and subject to the following conditions:

1)	The Master and Operator acknowledges receipt of this permission, together with their agreement to adhere to all the conditions contained herein, to be received by the MTPC by 18 March 2020 via e-mail mtpc@abf.gov.au .
2)	The operator or its agent/representative are to pay costs associated with this approval which includes transfers of border agency personnel, officers' travel time and all associated costs including officers' overtime and salaries in accordance with relevant Commonwealth Legislation.
3)	ABF officers may attend ports that are other than an appointed port and/or restricted minor port. Shall attendance occur, your company or its Agent is to pay all costs associated with this approval including transfers of officers from home port to the various places other than an appointed port and/or restricted minor port and return to home port, general maintenance of the officers, and all costs associated with officers' services, including overtime and salaries.
4)	Permission is granted for the period of 19 March 2020 only in accordance with Attachment A .
5)	Under sections s64ACA and s64ACB of the <i>Customs Act 1901</i> , operators are obliged to provide a report on all people on board at each and every port in Australia within the specified time frames outlined in the Customs Regulations 2015. This report is in two parts - Customs Form 2A (Passenger Report Cover Sheet), Customs Form 2B (Passenger Report) and Form 3B (Sea crew Report).
6)	Under s118CA of the Customs Act 1901, (outbound clearance certificate) for each port/approved place. The master of a ship must not depart with the ship from any port in Australia without receiving from the Collector (from the ABF District Manager) a Certificate of Clearance in respect of the ship.

7)	<p>The District Manager or Supervisor at the nearest ABF office to the port that is other than an appointed port and/or restricted minor port must be advised at least 72 hours prior to the arrival of your vessel as to the information below:</p> <ul style="list-style-type: none"> • The approximate number of passengers to go ashore • The approximate number of crew to go ashore for leave • The times that location boats and ship's tenders (if approved) will be departing from and returning to the vessel.
8)	<p>Passengers will not be permitted to leave or join the vessel permanently at a port that is other than an appointed port and/or restricted minor port which does not have a permanent biosecurity and/or ABF presence. Unless there are exceptional circumstances and notification and approval has been given by Australian Border Force (ABF) and Department of Agriculture. In the case of emergencies notification is required to be given as soon as reasonably possible.</p>
9)	<p>Only passengers and crew on day excursions or crew on day leave may leave the vessel at ports that are other than an appointed port and/or restricted minor port. All passengers and crew must be accounted for back on board before the vessel departs the port. If any passenger or crew fails to return to the vessel, the Master of the vessel must notify ABF immediately.</p>
10)	<p>Passengers and crew on day excursions are to be advised not to take ashore any packages, parcels or foodstuffs, including picnic lunches, nor are any packages, parcels or foodstuffs to be removed from the vessel for any reason unless permission has been granted by Department of Agriculture or ABF.</p>
11)	<p>Where visitors have been invited to board a cruise ship for a function or other purpose, the cruise line operator should advise the MTPC at least ten (10) working days prior to the visit, or as soon as practical. Visitors departing a cruise ship must not remove any item of biosecurity concern including food, animal and/or plant material. Please refer to 'Advice to Industry 2012/01 – Procedures: Visitors Boarding a Cruise Ship.'</p>
12)	<p>For zodiacs, kayaks, tenders and other watercraft carried on vessels for use during a voyage:</p> <ol style="list-style-type: none"> 1. Goods, including food, fresh produce (eg: fruit, meats and dairy products), and prepared meals are not to be removed from the vessel during any excursion/activity. 2. Any watercraft that is discharged from the vessel must be free from biosecurity risk contamination (eg: soil, sand, feathers, seeds, plant and plant products, food of any kind, food scraps or waste) as these items can carry disease organisms and plant pests. 3. Watercraft being discharged from the vessel must be clean and free from biofouling and any pooled water. Biofouling are the marine plants and animals that attach and grow on the submerged parts of a vessel like the hull, propellers, anchors, niche areas and fishing gear. For further information, visit Managing biofouling in Australia. 4. All watercraft must return to the originating vessel upon completion of the excursion/activity.

13)	<p>The operator or its agent/representative are required to submit any tour guide itineraries and schedules originating or terminating ship side (eg: zodiac or kayak tours) to the local ABF office prior to commencement, with times, dates, passenger/crew details.</p> <p>Permission needs to be gained from all port authorities for zodiac or kayak tours.</p> <p>If a sea door is open waterside to launch/recover kayaks/zodiacs it must be manned by cruise vessel security and setup to assess passengers/crew departing/returning.</p> <p>Kayaks/zodiacs are not to come ashore at any stage without prior ABF approval (or contact ABF immediately in case of emergency situation).</p> <p>No activity with any other vessels other than Ruby Princess and her kayaks/zodiacs.</p> <p>Kayaks and any other items removed from the vessel and taken back on the vessel must be reported on Form 43 and Form 44 to ABF of that region.</p> <p><u>Tasmania Additional</u></p> <p>Kayaks/zodiacs not to land at Port Arthur Historic Site including Point Puer and Isle of the Dead. For further information/clarification, contact TAS National Parks & Wildlife.</p>
14)	All crew members must be accounted for back on board before the vessel departs any of the ports. If any crew fail to return to the vessel, the Master must notify ABF immediately.
15)	An exchange of crew members will not be permitted at ports that are other than an appointed port and/or restricted minor port, except in exceptional circumstances and with the written permission from the ABF District Manager or Supervisor at the nearest ABF office to the port that is other than an appointed port and/or restricted minor port.
16)	Where approval has been given by the ABF District Manager or Supervisor for the ship's lifeboats and tenders to be used to transport travellers to and from the ship, these will be subject to compliance with Commonwealth and state laws. Lifeboats and tenders are not to be used for any other purposes unless the nearest ABF District Manager or Supervisor has specifically agreed to such an arrangement.
17)	Domestic voyages will require duty and GST payments for bunkers and stores. Duty free shopping should not be available to domestic passengers.
18)	Travellers are subject to inwards Immigration and Customs clearance at (Sydney) . En route clearances should be requested as per Advice to Industry 2014/01.
19)	Travellers are subject to outwards Immigration and Customs clearance at (Sydney) unless immigration cleared at a previous port. The operator or its Agent is to pay all costs associated with providing such infrastructure and facilities.
20)	Passengers should be advised that the Tourist Refund Scheme (TRS) will only be processed at the last appointed port in Australia (Sydney) prior to international departure.
21)	No goods are to be loaded or offloaded unless approval has been given by ABF.
22)	For Department of Agriculture approval and conditions, to moor at a Non First Point of Entry (s247), please refer to the MARS Biosecurity Status Document (BSD) issued by the Department of Agriculture. Both the BSD and the Maritime Travellers Processing Committee (MTPC) approval letter must be kept by the vessel operator/master and be produced on request.
23)	Aviation and Maritime Security (AMS) has advised that although this application has been approved, it remains the operator or its agent/representative's responsibility to ensure regulatory compliance with the Maritime Transport and Offshore Facilities Security Act 2003 and Maritime Transport and Offshore Facilities Security Regulations.

24)	<p>Parks Australia has advised that commercial tourism activities within an Australian Marine Park require an authorisation from the Director of National Parks.</p> <p>The operator must apply for a commercial tourism licence where a cruise ship has a destination point (meaning the ship will stop or slow) within an Australian Marine Park to ensure compliance with the Environmental Protection and Biodiversity Conservation Act 1999.</p> <p>Although this MTPC application has been approved, it remains the operator's or its agent/representative's responsibility to ensure regulatory compliance with this Act.</p> <p>Further information can be obtained from the Parks Australia website: https://parksaustralia.gov.au/marine/ or by contacting marineparks@environment.gov.au</p>
25)	No goods are to be offloaded without approval from Department of Agriculture and ABF.
26)	No galley waste, food or plant material is landed at ports other than an appointed port and/or restricted minor port, unless authorised by a Department of Agriculture officer.
27)	All refuse is to be stored in sealed, leak proof containers approved for use by Department of Agriculture and on board galley grinders are not to be used in port.
28)	Macerator/garbage grinder and/or swing bin are not to be used while the vessel is in Australian ports or waters.
29)	If an inspection of the vessel is required, it is the responsibility of the Master (via the nominated shipping agent) through an agreement with the Department of Agriculture to meet all transport, accommodation and incidental costs, for a biosecurity officer to attend the vessel, in accordance with the Biosecurity Charges Imposition Regulation 2016.
30)	If any biosecurity breaches are detected, any cost associated with biosecurity services provided (eg: fee for service) will be in accordance with the Biosecurity Charges Imposition Regulation 2016.
31)	Shipping Entities remit the Passenger Movement Charge (PMC) for all non-exempt passengers, currently AUD \$60.00, with the PMC Remittance Report and payment to the Department in accordance with the PMC Arrangement Payment Schedule (due on the 25 th day of every month after departure).
32)	Any other condition, which an ABF Officer in charge may impose to protect the law as administered by ABF, Department of Agriculture and the Department of Infrastructure must be adhered to.
33)	A copy of this permission is to be forwarded to the local ship's Agent, so that they are aware of their responsibilities in relation to the ship's visit to the various ports.
34)	Should circumstances arise that require you to vary in any way the conditions prescribed in this permission, immediately contact either the Supervisor or District Manager at the nearest ABF office to the various ports that are other than an appointed port and/or restricted minor port and the Maritime Travellers Processing Committee. Contact details are provided in Attachment B .
35)	Should there be a change in the Master of the vessel, the new Master should confirm their agreement to the conditions outlined in this approval via email to mtpc@abf.gov.au

Maritime Travellers Processing Permission for Vessel

Ruby Princess

**Permission is granted in accordance with s58 of the Customs Act 1901 and
s247 of the Biosecurity Act 2015**

Permission is granted by the Maritime Travellers Processing Committee (MTPC) for the Master of the vessel, Ruby Princess to permit their vessel to arrive at and depart from a port other than an appointed port and/or restricted minor port in accordance with the Schedule in **Attachment A** and subject to the following conditions:

1)	The Master and Operator acknowledges receipt of this permission, together with their agreement to adhere to all the conditions contained herein, to be received by the MTPC by 18 March 2020 via e-mail mtpc@abf.gov.au .
2)	The operator or its agent/representative are to pay costs associated with this approval which includes transfers of border agency personnel, officers' travel time and all associated costs including officers' overtime and salaries in accordance with relevant Commonwealth Legislation.
3)	ABF officers may attend ports that are other than an appointed port and/or restricted minor port. Shall attendance occur, your company or its Agent is to pay all costs associated with this approval including transfers of officers from home port to the various places other than an appointed port and/or restricted minor port and return to home port, general maintenance of the officers, and all costs associated with officers' services, including overtime and salaries.
4)	Permission is granted for the period of 19 March 2020 only in accordance with Attachment A .
5)	Under sections s64ACA and s64ACB of the <i>Customs Act 1901</i> , operators are obliged to provide a report on all people on board at each and every port in Australia within the specified time frames outlined in the Customs Regulations 2015. This report is in two parts - Customs Form 2A (Passenger Report Cover Sheet), Customs Form 2B (Passenger Report) and Form 3B (Sea crew Report).
6)	Under s118CA of the Customs Act 1901, (outbound clearance certificate) for each port/approved place. The master of a ship must not depart with the ship from any port in Australia without receiving from the Collector (from the ABF District Manager) a Certificate of Clearance in respect of the ship.

7)	<p>The District Manager or Supervisor at the nearest ABF office to the port that is other than an appointed port and/or restricted minor port must be advised at least 72 hours prior to the arrival of your vessel as to the information below:</p> <ul style="list-style-type: none"> • The approximate number of passengers to go ashore • The approximate number of crew to go ashore for leave • The times that location boats and ship's tenders (if approved) will be departing from and returning to the vessel.
8)	<p>Passengers will not be permitted to leave or join the vessel permanently at a port that is other than an appointed port and/or restricted minor port which does not have a permanent biosecurity and/or ABF presence. Unless there are exceptional circumstances and notification and approval has been given by Australian Border Force (ABF) and Department of Agriculture. In the case of emergencies notification is required to be given as soon as reasonably possible.</p>
9)	<p>Only passengers and crew on day excursions or crew on day leave may leave the vessel at ports that are other than an appointed port and/or restricted minor port. All passengers and crew must be accounted for back on board before the vessel departs the port. If any passenger or crew fails to return to the vessel, the Master of the vessel must notify ABF immediately.</p>
10)	<p>Passengers and crew on day excursions are to be advised not to take ashore any packages, parcels or foodstuffs, including picnic lunches, nor are any packages, parcels or foodstuffs to be removed from the vessel for any reason unless permission has been granted by Department of Agriculture or ABF.</p>
11)	<p>Where visitors have been invited to board a cruise ship for a function or other purpose, the cruise line operator should advise the MTPC at least ten (10) working days prior to the visit, or as soon as practical. Visitors departing a cruise ship must not remove any item of biosecurity concern including food, animal and/or plant material. Please refer to 'Advice to Industry 2012/01 – Procedures: Visitors Boarding a Cruise Ship.'</p>
12)	<p>For zodiacs, kayaks, tenders and other watercraft carried on vessels for use during a voyage:</p> <ol style="list-style-type: none"> 1. Goods, including food, fresh produce (eg: fruit, meats and dairy products), and prepared meals are not to be removed from the vessel during any excursion/activity. 2. Any watercraft that is discharged from the vessel must be free from biosecurity risk contamination (eg: soil, sand, feathers, seeds, plant and plant products, food of any kind, food scraps or waste) as these items can carry disease organisms and plant pests. 3. Watercraft being discharged from the vessel must be clean and free from biofouling and any pooled water. Biofouling are the marine plants and animals that attach and grow on the submerged parts of a vessel like the hull, propellers, anchors, niche areas and fishing gear. For further information, visit Managing biofouling in Australia. 4. All watercraft must return to the originating vessel upon completion of the excursion/activity.

13)	<p>The operator or its agent/representative are required to submit any tour guide itineraries and schedules originating or terminating ship side (eg: zodiac or kayak tours) to the local ABF office prior to commencement, with times, dates, passenger/crew details.</p> <p>Permission needs to be gained from all port authorities for zodiac or kayak tours.</p> <p>If a sea door is open waterside to launch/recover kayaks/zodiacs it must be manned by cruise vessel security and setup to assess passengers/crew departing/returning.</p> <p>Kayaks/zodiacs are not to come ashore at any stage without prior ABF approval (or contact ABF immediately in case of emergency situation).</p> <p>No activity with any other vessels other than Ruby Princess and her kayaks/zodiacs.</p> <p>Kayaks and any other items removed from the vessel and taken back on the vessel must be reported on Form 43 and Form 44 to ABF of that region.</p> <p><u>Tasmania Additional</u></p> <p>Kayaks/zodiacs not to land at Port Arthur Historic Site including Point Puer and Isle of the Dead. For further information/clarification, contact TAS National Parks & Wildlife.</p>
14)	All crew members must be accounted for back on board before the vessel departs any of the ports. If any crew fail to return to the vessel, the Master must notify ABF immediately.
15)	An exchange of crew members will not be permitted at ports that are other than an appointed port and/or restricted minor port, except in exceptional circumstances and with the written permission from the ABF District Manager or Supervisor at the nearest ABF office to the port that is other than an appointed port and/or restricted minor port.
16)	Where approval has been given by the ABF District Manager or Supervisor for the ship's lifeboats and tenders to be used to transport travellers to and from the ship, these will be subject to compliance with Commonwealth and state laws. Lifeboats and tenders are not to be used for any other purposes unless the nearest ABF District Manager or Supervisor has specifically agreed to such an arrangement.
17)	Domestic voyages will require duty and GST payments for bunkers and stores. Duty free shopping should not be available to domestic passengers.
18)	Travellers are subject to inwards Immigration and Customs clearance at (Sydney) . En route clearances should be requested as per Advice to Industry 2014/01.
19)	Travellers are subject to outwards Immigration and Customs clearance at (Sydney) unless immigration cleared at a previous port. The operator or its Agent is to pay all costs associated with providing such infrastructure and facilities.
20)	Passengers should be advised that the Tourist Refund Scheme (TRS) will only be processed at the last appointed port in Australia (Sydney) prior to international departure.
21)	No goods are to be loaded or offloaded unless approval has been given by ABF.
22)	For Department of Agriculture approval and conditions, to moor at a Non First Point of Entry (s247), please refer to the MARS Biosecurity Status Document (BSD) issued by the Department of Agriculture. Both the BSD and the Maritime Travellers Processing Committee (MTPC) approval letter must be kept by the vessel operator/master and be produced on request.
23)	Aviation and Maritime Security (AMS) has advised that although this application has been approved, it remains the operator or its agent/representative's responsibility to ensure regulatory compliance with the Maritime Transport and Offshore Facilities Security Act 2003 and Maritime Transport and Offshore Facilities Security Regulations.

24)	<p>Parks Australia has advised that commercial tourism activities within an Australian Marine Park require an authorisation from the Director of National Parks.</p> <p>The operator must apply for a commercial tourism licence where a cruise ship has a destination point (meaning the ship will stop or slow) within an Australian Marine Park to ensure compliance with the Environmental Protection and Biodiversity Conservation Act 1999.</p> <p>Although this MTPC application has been approved, it remains the operator's or its agent/representative's responsibility to ensure regulatory compliance with this Act.</p> <p>Further information can be obtained from the Parks Australia website: https://parksaustralia.gov.au/marine/ or by contacting marineparks@environment.gov.au</p>
25)	No goods are to be offloaded without approval from Department of Agriculture and ABF.
26)	No galley waste, food or plant material is landed at ports other than an appointed port and/or restricted minor port, unless authorised by a Department of Agriculture officer.
27)	All refuse is to be stored in sealed, leak proof containers approved for use by Department of Agriculture and on board galley grinders are not to be used in port.
28)	Macerator/garbage grinder and/or swing bin are not to be used while the vessel is in Australian ports or waters.
29)	If an inspection of the vessel is required, it is the responsibility of the Master (via the nominated shipping agent) through an agreement with the Department of Agriculture to meet all transport, accommodation and incidental costs, for a biosecurity officer to attend the vessel, in accordance with the Biosecurity Charges Imposition Regulation 2016.
30)	If any biosecurity breaches are detected, any cost associated with biosecurity services provided (eg: fee for service) will be in accordance with the Biosecurity Charges Imposition Regulation 2016.
31)	Shipping Entities remit the Passenger Movement Charge (PMC) for all non-exempt passengers, currently AUD \$60.00, with the PMC Remittance Report and payment to the Department in accordance with the PMC Arrangement Payment Schedule (due on the 25 th day of every month after departure).
32)	Any other condition, which an ABF Officer in charge may impose to protect the law as administered by ABF, Department of Agriculture and the Department of Infrastructure must be adhered to.
33)	A copy of this permission is to be forwarded to the local ship's Agent, so that they are aware of their responsibilities in relation to the ship's visit to the various ports.
34)	Should circumstances arise that require you to vary in any way the conditions prescribed in this permission, immediately contact either the Supervisor or District Manager at the nearest ABF office to the various ports that are other than an appointed port and/or restricted minor port and the Maritime Travellers Processing Committee. Contact details are provided in Attachment B .
35)	Should there be a change in the Master of the vessel, the new Master should confirm their agreement to the conditions outlined in this approval via email to mtpc@abf.gov.au

Hi,

I have just received a call and follow up email regarding the below and "possible" COVID 19 on board Ruby Princess due to enter 2am.

I have spoken to Cameron form Sydney ports and apparently that is NOT the case – however this was the advice provided by NSW Ambulance Service..

Could I please request that you reach out to our maritime teams to provide them with Cameron's number below so we can get the latest information from the vessel once the pilot is on board obviously with a view to letting our guys know of the potential exposure notwithstanding I am sure measures are already being taken given there are over 100 passengers in isolation.

I will follow this up with a call.

Hey Carl,

As discussed, we received a report 3rd hand in regards to two (2) possible confirmed cases of COVID-19 on board the vessel. Sydney Ports were having issues raising anyone from NSW Health to notify, hence they reached out to us and we thought we'd contact you as well.

However, since we last spoke, Cameron from Sydney Ports has called us back informing us that they contacted the CEO of Carnival Cruises, who informed them that there were two (2) ambulances booked for two (2) NON – COVID-19 related illnesses. It appears that there was a miscommunication between the ship, the port agent and Ports.

To alleviate any further miscommunications, I was hoping you might be able to call Cameron, who is the current supervisor at Sydney Ports on [REDACTED] and confirm all the information.

Thanks again for your assistance, very much appreciated

Hi Gerard,
Thanks for the call and info...
I have spoken to Cameron and as you know likely miscomms.. but we'll wait for the pilot to get I touch. Further I have provide our maritime team with a heads up and to give Cameron a call and so I think we have our bases covered.
Thanks again.

Good morning,

Cruise vessel Ruby Princess has docked at OPT this morning 02:00hrs with 128 passengers in isolation, 24 with fever.

Two passengers have been transported to hospital for illnesses not related to COVID-19.

I was advised through Port Authority that NZ conducted COVID-19 tests on six (6) passengers.

Are we able to urgently follow up with our NZ counterparts on testing confirmation and any results of these tests.

Maritime officers are arriving at 06:30hrs to conduct clearance formalities pending health clearance.

For-Official-Use-Only

Updates below in blue:

OPCOMD,

Please find below consolidated general outline for General Outline for Golden Princess Arrival – Melbourne 19MARCH

Golden Prince berthed at Station Pier at 04:00
FWD CMD Rosemond is on site

- Pilot has been confirmed – Port Phillip Bay sea pilots
 - Pilot to board at 00:30 19MAR
 - Vessel to be alongside Outer West Station Pier between 04:15-04:60
- CMDR Palmer will be in VIC/TAS RCU from 05:00 19MAR
 - CMDR Palmer has made contact with VIC POL
 - will be POC for VICPOL Emergency Service & Support
- ABF FWDCMD = Tori Rosemond – available on M [REDACTED] (after 03:00 19MAR)
- Approx. 2208 (Australian 1798, international 410) pax & 1042 (1 Australian) crew
- 52 PAX unwell:
 - 6 with flu like symptoms;
 - 16 with common colds; and
 - Other general illnesses incl chicken pox, gastro.
 - 26 Pax in isolation.
- MPTC have endorsed s58(2) arrival (including Agriculture & Health)
- Media Talking points have being drafted by ICC (based on Silver Spirit) and have been provided to ABF Media & OPCOMD for clearance early 19MAR

INCHCAPE (shipping operators) have emailed Captain of Golden Princess, and VIC cruise ships , Melbourne seaports and VIC seaports to advise

- that the pratique status of Golden Princess has been updated to negative pratique as per notice from Department of Agriculture.
- assigned nurses to take the swabs are expected to arrive on-board at approx. 0700hrs LT on 19th March therefore this would affect debark and stores operations.
- Authorities – Quarantine and Border Force – will be in the terminal upon vessel's arrival.
- Dependant on the requirement, authorities may board the vessel to discuss the matter and carry out duties as required.

Agriculture have advised:

On direction from Department of Health, the pratique status and permission to disembark for passengers has been updated to **negative pratique**.

The vessel is able to come alongside, providing provision for boarding of select Biosecurity, ABF and Department of Health officials.

Department of Health Officials will give instruction on performance of required swabs for 22 suspected cases of respiratory illness (and any others who are identified). Biosecurity officers will also board and provide advice on required process, performing other biosecurity functions as required during this time.

Dependant on requirement, ABF officers may also need to board and perform duties as required.

DoH, ABF and Biosecurity officials will be in full protective equipment and require quick access to all parts of the vessel advised.

It is highly recommended, that the vessel make an announcement advising of requirement for all passengers and crew to remain in their cabins or quarters whilst this occurs, ensuring clear passage and access for DoH and Biosecurity staff to a relevant centralised medical facility, or identified suspect cases quarters as required.

Once swabs are taken and secured off the vessel, further advice will be supplied around when pratique may be granted and passengers can disembark.

Public Health Operations Lead – Dr Naveen Tenneti:

- pratique will be granted to the vessel.
- all passengers must remain on the vessel until test results return.

DHHS will:

- Provide nurses to perform nasopharyngeal swabs on these 22 suspected cases (and any others who are identified).
 - DHHS (Peter Moore) advises nurses will be at port by 07:00
- swabs to be sent urgently to the Victorian Infectious Diseases Reference Laboratory.
- DHHS will liaise directly with VIDRL to coordinate timing of swab arrival and prioritisation of these swabs.
- Provide results from these swabs as soon as available.
- Determine further public health actions based on results
 - If no positives: ship can disembark and passengers will undertake self-isolation/movement as required.
 - **If positives: DHHS will assess where the positive cases need to go based on a range of factors including clinical status and intended location for self-isolation**
 - **If clinically unstable: DHHS will organise transport by ambulance to the Royal Melbourne Hospital**
 - **If clinically stable: DHHS will assess based on appropriateness of intended location for self-isolation.**
- Liaise with biosecurity and port authorities to determine timing of disembarkation for all other passengers

Biosecurity/DAWE

- Undertake usual biosecurity processes.
- Undertake TIC forms on any newly identified ill passengers (i.e. those who were not identified in the pre-arrival report) and liaise with the on-call HBO on requirements.
- In liaison with port authorities, facilitate access for DHHS staff and nurses to the vessel for action.
- Assist nursing and DHHS staff as required.

Port/terminal staff

- Undertake usual processes
- Facilitate access for DHHS staff and nurses to the vessel for action

Pending actions (as identified from Health)

1. Need to ensure that relevant pre-arrival announcements are made which ask that all passengers stay in their room until provided other information
2. Identify an appropriate location for nursing staff to perform required swabs – I'm agnostic as to whether this is in a centralised medical facility on the vessel or if biosecurity officers guide nursing staff to each relevant room.

Pending actions from OPCOMD meeting at 18:45

1. OPCOMD to have Rhonda on standby
2. OPCOMD to provide VICPOL with CMDR Palmer / RCU VIC contacts

ICC

1. Identify any communication used by NC to vessel
 - a. Attached are TPS used by NC
2. Contact OPCOMD (txt) @ boarding of vessel-time Health board (after 0700)
3. Contact OPCOMD (txt) at conclusion of swaps
 - Confirm exact number of swaps
 - Number of sick pax / crew

Mick,

See below from our Cruise ship Coordinator.

.....

Hi, having checked with the agent it would appear they are most likely talking about the Golden Princess, not the Ruby.
 Golden was in Akaroa over the weekend. and testing was conducted with negative results. She then departed deep sea.
 Ruby had departed Napier 15 March on her normal voyage but was recalled to Australia immediately and sailed for Australia on the same day.
